

Good evening madam mayor, councilpersons.

I'm Keith Shillington, and now reside by myself on Leucadia Scenic Court.

I come tonight to share a thought for the public record.

Last month, the late Robert Nanninga was confined to the intensive care unit at Scripps Green, fighting to get enough oxygen to live.

Meanwhile, the City of Encinitas was busy cutting down perfectly healthy trees in a city park.

Failure and extinction are the inevitable future for the human race.

I'd like to thank you for hastening the progress.

Please note, in an attempt at mitigation, we'll be planting a tree for Mr. Nanninga at Cottonwood Creek Park on Sunday at one in the afternoon.

Thank you and good night.
